

AutoSnap[®]

Snap-on Fitting for TracPipe[®] CounterStrike[®]

Lightning Fast

TWIST • SNAP • TIGHTEN • DONE

"I think that this new edition to your product line will be another reason that your product is the best in the market and contractors will be excited about the results. I look forward to the release of the new fitting." — David Richardson, RNC Manager for Weather Master Heating and Air Conditioning, Inc. whose company participated in the AutoSnap testing trials.

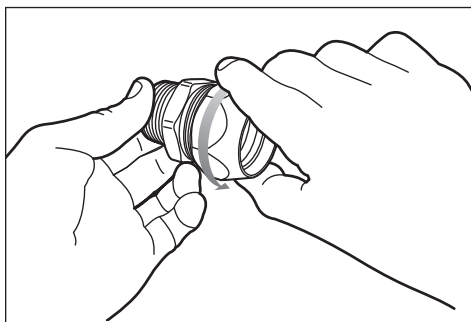

The new patent pending **AutoSnap®** straight fittings are the only CSST fittings that do not require any disassembly or reassembly of the fitting to the TracPipe® CounterStrike® CSST.

This greatly reduces installation difficulty and time as there are no small loose gaskets, O-rings, or retainer rings to contend with in a dark and/or cold work place environment!

AutoSnap is CSA listed and features a metal to metal cup seal without any exposed stainless steel pipe behind the new fitting.

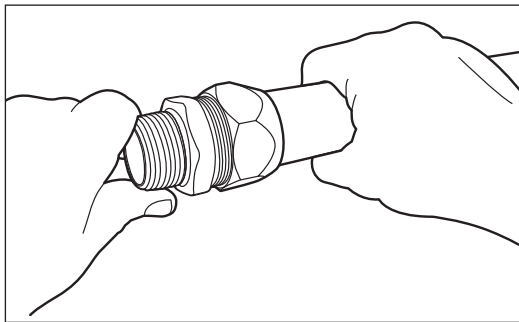

Reduced torque value and reusability all make for an optimum installer friendly fitting!

So easy to use you can even keep your gloves on!

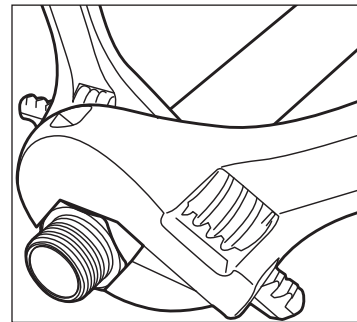

TWIST

TWIST NUT ONE TO ONE AND A HALF COUNTERCLOCKWISE TURNS

SNAP

SNAP THE COUNTERSTRIKE® TUBING INTO THE BACK END OF THE FITTING

TIGHTEN

TIGHTEN THE AUTOSNAP FITTING TO THE SPECIFIED TORQUE VALUE

DONE!
