

MOVING YOU AHEAD OF THE CURVE-

On September 1, 2011
yellow piping makes way for
the safest gas piping available -
TracPipe®CounterStrike®—

OmegaFlex® will be transitioning
its line of CSST fuel gas piping
exclusively to its
TracPipe®CounterStrike®
product line.

With millions of feet and tens
of thousands of installations,
TracPipe®CounterStrike® has all of the
safety, ease and performance you've come
to expect from OmegaFlex's flexible gas piping- only better.

TracPipe®CounterStrike® is up to 400 times more resistant
to lightning strikes than conventional yellow CSST, does not
require additional bonding, and tested to resist damage from
earthquakes. There is no other choice.

TracPipe® CounterStrike®
Flexible Gas Piping by OmegaFlex.
